Invictus FC announced today the exciting news of their new **Women's UPSL team** for the **2021 Summer Season** - providing outstanding high level opportunities for the top Women's talent throughout the Central New York area.

After officially joining the **USPSL** earlier this year, **Invictus FC** have developed a Men's program that has grown from strength to strength, and the same approach and initiatives will now be taken on the Women's side of the game. **Technical Director, Paul Mairs** shared his perspective on this important new announcement for the club:

“We had all the plans in place to begin our Women's team in the Spring of 2022, but this exciting opportunity came a few weeks ago, and we decided that from a logistical point of view we were ready. So, we sat down, and spoke with a number of local supporters that we have partnered with over the last few years, and the decision was made. Many of us at Invictus were eager to provide

this for the Women's and Girl's side of the program, as we have worked with some fantastic players over the years; many have graduated from our program and gone on to play high level college soccer. This now provides players with the perfect platform to continue to play at a high level outside of the college programs. At the same time, it provides the younger girls in the club with an amazing pathway and something to work toward."

The Invictus FC Women's team will train in the Syracuse area and play their home games at Accelerate Sports. Open Evaluation Tryouts will begin on Sunday, April 11th, and are open to all players.

The UPSL was founded in 2011 and currently includes more than 300 teams Nationally. The UPSL is the fastest growing Pro Development League in the USA. Ticket information, and the official announcement of the **UPSLS 2021 schedule** will be announced shortly. Please visit invictusfc.com for all **UPSLS** related and **Youth Soccer** information.
